SKILLS

HTML / CSS	React	Git
TypeScript	React Native	Vite
Swift	Angular	Jira
Java	Spring Boot	JUnit
SQL	TanStack	Azure

EXPERIENCE

Medtronic, Remote - *UX Developer Consultant*

February 2024 - Present

- Spearheaded the development of Medtronic's Interoperability app from inception, building reusable components that reduced frontend development time by 70%.
- Independently merged two repositories into a shared application, enabling component reuse that saved the team hundreds of hours of development.
- Refactored the existing frontend codebase to adopt modern open-source libraries such as TanStack and Jotai, improving maintainability and simplifying application state management.
- Created a comprehensive DESIGN.md documenting frontend coding practices, significantly accelerating the onboarding process for new developers.
- Delivered front-end code updates for a React Vite application in 2 week sprints, leveraging GitLab for version control and collaboration.
- Facilitated cross functional design alignment through weekly sessions to enhance code reusability and design practices.

Optum, Remote - *Software Engineer Consultant*

February 2023 - August 2023

- Delivered full-stack improvements for a React and Java Spring Boot application hosted on Azure, focusing on code efficiency and reusability.
- Enhanced user experience by implementing new features for search bars, filter options, and patient profiles, reducing patient search times by 60%.
- Optimized back-end performance by refactoring legacy code to improve system maintainability.
- Executed database modifications and fixes using MySQL Workbench to support feature enhancements.
- Applied Agile methodologies, tracked sprint progress via Rally, and collaborated to efficiently resolve merge conflicts.

EDUCATION

University of Wisconsin, Madison - *Bachelor of Computer Science*

August 2018 - December 2023
